

PTU50 - Ultrasonic level transmitter

0137

Servicies

After sale servicies

Ordinary and extraordinary maintenance, installation, staff training, spare parts, calibration and calibration for measuring instruments.

Product description

Non-intrusive systems have numerous advantages in many fields of application. For this reason SGM-LEKTRA has developed the PTU50 level/distance transmitter.

The PTU50 unit offers, together with its compactness, a singular simplicity of installation. The calibration and configuration of the PTU50 transmitters is possible, even remotely, thanks to a MODBUS RTU connection together with the relative PC software, or via the VLW90M / VLW60T display and power supply units. The degree of protection IP68 allows application in wells under the walking surface.

Suitable for liquids measurement
