

KPL - Hydrostatic head level transmitter

0148

Servicies

After sale servicies

Ordinary and extraordinary maintenance, installation, staff training, spare parts, calibration and calibration for measuring instruments.

Product description

Specific for clean water

Suitable for continuous liquids level measurement.

Typical application areas are drinking water plants and artesian wells.

The KPL level transmitter configuration options make it suitable for most industrial sectors (oil, chemical, power, metallurgy, pharmaceutical and food) and in different operating conditions.

These characteristics make it the ideal instrument in process automation for the hydrostatic head levels measurement.

General Features

Accuracy	$\pm 0.5\%$	Range	0 ÷ 10m H2O relative pressure
Classificazione IP	IP68	Classificazione IP	IP68
