0176

## ***Servicies***

### **After sale servicies**

Ordinary and extraordinary maintenance, installation, staff training, spare parts, calibration and calibration for measuring instruments.

## Product description

p>The Testo Saveris 2 WiFi is the ultimate solution for safeguarding your valuable, temperature-sensitive products stored in fridges across environments like pharmacies, hospitals, and supermarkets.

This data logger saves you from high costs and waste by eliminating the need for manual temperature checks. Data is automatically sent to the cloud and accessible in real-time across various devices. The Saveris 2-T2 kit also includes thermal probes and glycol vials to prevent false alarms and ensure maximum accuracy in measurement.

With included access to TestoCloud, monitoring your refrigerated products has never been so easy and reliable.
