Product description

The Testo 300 NEXT LEVEL kit is your all-in-one solution for professional combustion analysis in heating systems. With TÜV-certified O2 and CO sensors up to 4000 ppm, this robust analyzer is your reliable partner for precise measurements. Enhanced with a compact probe for combustion gases, a Bluetooth printer, and a range of practical accessories, it's ideal for professionals seeking both efficiency and accuracy. The inclusion of free PC software and a durable carrying case make this kit a long-lasting investment for your business.
