Product description

Achieve accurate and reliable thickness measurements with our advanced thickness gauge. With a wide measurement range up to 225 mm and the ability to adjust ultrasonic speed, this device is perfect for a variety of materials, including steel, aluminum, and precious metals. Built-in limit alarm function and data storage make it ideal for stringent quality checks. Optional ISO calibration report available.

General Features

Dimensions	163 mm x 82 mm x 38 mm	Weight	320 g
Resolution	0.01mm for <=99.99mm; 0.1mm for >=100.0mm	Temperature	-10 - 60 °C
Range	1,00 mm - 225,0 mm	Precision	±0.5% of value + 0.05mm
Frequency range	5 MHz	Frequency range	5 MHz
