## Product description

Our advanced digital dynamometer, the PCE-DFG N 5-ICA, is designed for both tension and compression testing, offering precision up to 5 N with a resolution of 0.001 N. Featuring a large backlit display with automatic or manual orientation, it ensures easy data reading. With an internal memory for 100 measurement series and a USB interface, it allows data transfer to a PC for in-depth analysis using the included software. This robust dynamometer operates on a rechargeable battery, providing approximately 10 hours of continuous use. ISO certification included. Ideal for quality control and industrial applications.
