

## ***CUB - Rilevatore di gas VOC personale con lampada***

0240

### ***Servicies***

#### **After sale servicies**

Ordinary and extraordinary maintenance, installation, staff training, spare parts, calibration and calibration for measuring instruments.

## Product description

Experience the extraordinary patented Photoionization Detection (PID) technology with the Cub 11.7 eV sensor, setting the pinnacle in performance with an unparalleled combination of speed, precision, and moisture resistance. Independently verified as the undisputed leader in its field, the Cub 11.7 eV stands out as the world's smallest and lightest personal PID monitor.

This advanced device is specifically designed to provide accurate and reliable detection of volatile organic compounds and gases with higher energy demand, including acetylene, methanol, and formaldehyde. Its compactness and lightness make it an ideal companion for professionals requiring precise monitoring in environments where portability is essential.

Reliable even in the most adverse environmental conditions, the Cub 11.7 eV leads the industry, ensuring safety and efficiency for those working with the detection of potentially hazardous chemical substances.

## General Features

<b>Dimensions</b>	61mm x 66mm x 59mm	<b>Weight</b>	111g
<b>Resolution</b>	11.7 eV: 0.1 ppm	<b>Battery life</b>	Battery life up to 12 hours
<b>Battery life</b>	Battery charging time 4 hours	<b>Lamp</b>	11.7 eV
<b>Sensitivity</b>	0.5 ppm	<b>Calibration</b>	2-point calibration via docking station
<b>Allarme</b>	LED, audio and vibration siren 95 dB at 300 mm.	<b>Allarme</b>	LED, audio and vibration siren 95 dB at 300 mm.

Base price:	VAT excluded	VAT included
	1,630.20 €	1,988.84 €

Model ref. CK7SXCEX-WD
