

SF6 LeakCheck P1:p - Portable SF6 leak detector

0047

Servicies

After sale servicies

Ordinary and extraordinary maintenance, installation, staff training, spare parts, calibration and calibration for measuring instruments.

Product description

The LeakCheck P1:p represents an advancement in the detection of SF6 leaks, identifying even the smallest leaks with extreme sensitivity, down to the equivalent of a grain of rice per year. Ideal for high-voltage switches, it is resistant to saturation and offers a response in less than one second. With a non-radioactive source, it eliminates storage and transport issues compared to traditional gas detectors. Easy to use with a touch screen display, it offers various viewing modes and data storage options. It does not require consumables like Argon, reducing operational costs.

The kit includes a sensor, spare probes, and a sturdy carrying case. Perfect for industrial and medical applications.

General Features

Dimensions	H:500 mm L:400 mm P:190 mm	Weight	15 kg
Response time	T90 < 1 second	Battery life	Lead acid battery, internal and fully protected Recharge between 85-265 AC V, 50/60Hz
Data logging	Over 500 data points with date and time stamp, download via RS232 to a PC	Temperature	Storage: -10 to 60 oC (14 to 140 oF) Operating: 0 to 50 oC (32 to 122 oF)
Sensitivity	1 x 10e-7 ml/sec, 1 ppm, 0,01 gm/yr SF6. Highsense Option: 1 x 10e-8 ml/sec, 0,1 ppm, 0,001 gm/yr SF6	Calibration	Via CalCheck calibration accessory
Allarme	Audio and visual with an optional handset alarm	Detector	Negative Ion Capture (NIC): a non-radioactive, non-restricting carriage and no licensing required.
Detector	Negative Ion Capture (NIC): a non-radioactive, non-restricting carriage and no licensing required.		

Models and prices

Model ref.	Model	Price VAT escl.
A-24500	SF6 LeakCheck P1:p	29,295.50 €
A-24501	SF6 LeakCheck P1:p High Sense	32,245.20 €
