Servicies

After sale servicies

Ordinary and extraordinary maintenance, installation, staff training, spare parts, calibration and calibration for measuring instruments.

The prices could be not always up to date and they don't take into account any promotional sale on the e-commerce.

Product description

AreaCheck P2 is your ultimate system for fast and accurate monitoring of SF6 leaks. Equipped with visual and auditory alarms and easily configurable via PC or network interface, this tool offers security and protection against unauthorized access. With a replaceable SmartSensor and no maintenance required, it's ideal for applications in high-voltage electrical panels and the medical sector. Unaffected by other gases or humidity, for consistently accurate detections.

Included: Manual and set of keys.
